"STRONG MINDED WOMEN."

The Emergency Association A Stepping Stone To The Equal Rights' Association.

WOMEN ARE NOT PLASTER SAINTS.

Mrs. Lida Calvert Obenchain (Ella Calvert Hall), author of "Bully Aunt Experience" and other tales, one of Kentucky's most brilliant writers, given last week her views as to the bearing of the recent political disturbances in Kentucky on woman's ballot. It will be remembered that at the late Congressional hearing, a Northern opponent of equal rights for women related to the shooting of Goebel as a conclusive objection to letting women vote, and Mr. Charles R. Sanders made the same argument in the recent debate on equal suffrage in the Massachusetts Legislature. Mrs. Obenchain says:

A few weeks before our last, Equal Rights Convention I had a letter from Mrs. Mary C. Roark, asking me, among other things, for my idea of the lines of suffrage work that needed special attention in this State at the present time. As nearly as I can remember, my reply was as follows:

The political conditions in our State are such that I do not see how any woman with an atom of common sense who has the least idea of the expediency of line of work can possibly prove effective. This sounds pessimistic but I do not feel pessimistic at all. I believe that woman suffrage is near at hand, but it is going to be forced on the women of Kentucky by some unexpected combination of circumstances, just as it was forced on the women of New Orleans. The average woman has no sense of justice. She will have to learn the expediency of woman suffrage before she sees its justice.

When I wrote these words, I did not dream that their fulfillment lay very near at hand, and that it would be written in blood on the pages of Kentucky's history. A few weeks later came the assassination of Goebel, the climax of all Kentucky's bloody deeds. The "unexpected combination of circumstances" had occurred at last.

A few weeks later still, and the Louisville Courier-Journal announced that "The Women's Emergency Association" would hold a meeting "for the purpose of directing the attention of women to the importance and necessity of using their influence in behalf of good citizenship." Here was the fulfillment of my words. Goebel's death had not only reunited his party, but it had awakened the women of his State to realization of their civil responsibilities.

The mass meeting was held and the speakers were the most eminent among the city's clergy. There was a great amount of eloquence and enthusiasm. But between Bishop Dudley and Rev. Carter Helm Jones the women of Kentucky will have a hard time finding out who they are, and what they are, and where they are "at" in this political crisis.

First came Bishop Dudley who said that all the good qualities of man are due to women, and that "the mightiest, bravest, and best men in this country are just as good as the women want them to be," in which case we women are certainly a very bad lot.

civilized people?" said Mr. Temple Bodley, while Rabbi Moses rightly declared that we are in a certain sense "pagans." To Mr. Bodley's question there is but one answer. It has been only a few years since the Equal Rights Association, after ten years of hard work, swept from the statute books of Kentucky every vestige of the barbarous common law of England as it related to the property rights of married women; and there are still laws of our statute books laws relating to women and children, that would disgrace the pagans. I think that centuries hence, when a nobler race reads the dark page of history that Kentucky has recently written for herself, the comment will be: "But what could be expected from people whose ideals of womanhood were so low that their women were classed politically with 'minors, idiots, lunatics, and criminals'."

Granting that the ideals of women are wrong, and that these ideals have caused all the political trouble in Kentucky, still we women cannot justly be blamed; for women's ideals have always been measured by men. Men have said to women: "Thus must you think, thus must you speak, thus must you act," and women have obediently thought, spoken, and acted in accordance with the orders of men.

Government was framed by man; her ideal of home was made by man; and to cap the climax, she was not even permitted to have an ideal of herself. Her ideal of womanhood even was made by man. Man said to her: "The ideal woman is one whose sphere is the home. Wifehood and motherhood are the highest honors to which she aspires. She must be a good cook and a good seamstress, and a good housekeeper. She must keep the buttons sewed on, and darn the socks, and obey her husband, and always meet him with a smile; and she will only do this if we men will attend to everything outside the 'sphere' and all will be lovely." The women of Kentucky, with a few minor exceptions, have kept this ideal of womanhood enshrined in their inner hearts. They have bowed down to it and worshipped it daily. They have kept within their sphere, and they have shuddered with horror at the mere suggestion of roving and ravaging. If their ideals are to blame for the murder, the assassination, the political anarchy that disgraces Kentucky, let us all be just enough to go one step farther in the chain of causation of the tragedy, and blame on the shoulders of the men who framed these ideals and forced them on the hearts and the consciences of weak women.

The few minor exceptions who did not accept the man-made ideals were known as "strong-minded women." I do not love that adjective "strong-minded." The whole story of the woman movement is the story of the "strong-minded" woman who is conservative and the one who is progressive, between the two of which the ideal man makes for her and the woman who prefers to make her own way, and that is the story of the woman who is strong-minded and the former is not.

And if the women of Kentucky are to have the State by means of their ideals, as the Rev. Carter Helm Jones tells them to do, they must have good work by getting "strong-minded."

Elder Powell, one of the speakers at the great mass meeting, said that Kentucky women must "carry religion into politics." He said we were to carry religion into politics when the cry goes eternally up from press and from pulpit: "You must keep out of politics. Politics is not your sphere. The home is your sphere, and the State must be managed by the men, and if you manage the affairs of your home properly, that will be service enough to the State."

The Courier-Journal reporter said: "Between 1,500 or more women sat there and listened with breathless interest while the city's foremost speakers, among the clergy, told them that the salvation of the State and its politics depends upon them; that the civil rights of Kentucky's people and the reputation of the State depended on their efforts; and there was not a woman present but left the building firmly resolved to do all she could for the betterment and betterment of the people of this Commonwealth."

If the immortal gods wanted any "large language," they might have found the occasion for it in this meeting. Or perhaps it takes a strong-minded woman to see the other absurdity in the spectacle of these men, representatives of the class that has sole charge of politics, laying such tremendous responsibility on the shoulders of women. Women are the source of all good, but they are not good enough to vote. They must keep out of politics, and "carry religion into politics." Their ideals are wrong and they are to blame for most of the trouble, nevertheless, "the salvation of the State depends upon them."

HARDIN'S FORT.

A Cloverport Citizen Has In His Possession A Piece Of The Last Log That Was Used In Its Construction.

A REMARKABLE CAVE LAYS BELOW THE FORT.

A representative of the News casually dropped into the real estate office of D. L. Newsum, Monday, and was shown a piece of log three feet in length that came out of "Hardin's Fort," erected one hundred and twenty years ago near Hardinsburg, the county seat of this county, by the celebrated Indian fighter, Gen. William Hardin.

The piece of timber is partially decayed, but in all probability will last many years yet. There are a few of the old style nails projecting about three quarters of an inch on the outside. As this is the last of the logs, the owner prices it a valuable relic.

Gen. William Hardin was a pioneer of this county and a frontiersman of the true type. He and a few of his neighbors, among whom were the Claycombes, Brashears, Brummers, Bagers, Hymanes, Rice, Jollys, Barre, Deane, Spencers and others, penetrated the wilderness of Kentucky, about the year 1780. Gen. Hardin and three other companions, the names of whom cannot be recalled, were in search of a suitable location for his colony. They reached the falls of the Ohio, but finding a settlement and the nature of the country was too swampy, they re-embarked and floated down the glacial waters of the Ohio to the mouth of the Skinking Creek, where they anticipated the exploration of the adjacent country.

They embarked into the midst of a band of hostile savages. The Indians allowed them the privilege of going some three miles in the country, when they divided, one party taking possession of the boat, while the other pursued the whites.

Signs of Indian discovery were discovered and naturally they became on the alert, realizing they were being pursued by a superior body of savages and knowing the folly of the fight, they pushed on to Hink's Fort, the present site of Elizabethtown.

Their flight was continued until morning, and on reaching a large spring they stopped to rest and quench their thirst. All descriptions of the scene, and the scene where the town of Big Springs now stands. At this point savages attacked them.

SALOON MEN WIN.

The City Council All Vote For Whiskey.

The Largest Attendance In Years And A Lively Meeting.

TEMPERANCE PEOPLE REMONSTRATE.

Our City Dads met in regular monthly session Monday night at the City Hall. Mayor Barry and all the members were present, with the exception of Councilman Mattingly.

Clerk Toney read minutes of the previous meeting, which stood approved. The various committees were called upon to report, but had no reports to make. Claims and accounts were read on desk and all stood approved.

The attendance at this particular meeting was the largest since the installation of this body. On the 28th day of last month a local option election was held in precincts 1 and 2. The "wet" were successful and applications were at once posted for licenses to sell in precinct No. 2.

"Mug" Severs, a member of the law firm of Murray, Murray & Severs, was in attendance on behalf of Popham & Elder for license to retail liquors in precinct 2.

He pleaded before the body on the legal right of granting said license and hoped they would act on the matter wisely and justly.

F. N. DeHuy presented a petition on behalf of the temperance people with the signatures of over 100 names requesting the body to not grant license until the matter could be fairly settled in the courts as to the legality of said election in those two precincts.

This produced a great deal of excitement and the lawyers and councilmen's heads went close together in consultation. After considerable debate over this question, it was decided that the Mayor should select three members of the body to act. He named the following gentlemen: James G. Harris, S. H. McCracken and Eugene Haynes, who with City Attorney, James R. Skilman, closed themselves in the adjoining ante room to discuss the question and after a report. They were out probably twenty five minutes. On returning

Councilman Harris read a report to accept the matter as complete.

Councilman McCracken read his report requesting the granting of license with the provisions that a license first be obtained from the county judge. A vote was then taken on the last report, which received a second but the sufficient number of yeas was not heard.

This matter was dropped for a few moments until Councilman Haynes could consult with the City Attorney. He returned and said "I have one request to make before I vote. If the parties will sign a written agreement binding themselves not to retail liquors on Sunday, I will vote with the affirmative." Mr. Popham on behalf of the firm of Popham & Elder agreed to sign the article.

The question of advertising for water works and franchises for an electric light plant was ordered to be placed in the different trade journals by the clerk. The Council then adjourned.

Does It Pay To Buy Cheap?

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boeck's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. It recommended many years by all druggists in the world. For sale by—A. R. Fisher.

A Probability of Cloverport Having an Ax Handle Factory.

Messrs. John Pilsand and E. A. Epperson, representatives of the Mount City Handle Factory, were in the city last week with a view of establishing a similar factory here. Should these gentlemen decide to erect a factory at this place, the installation will give employment to 40 or 50 men. It is with the citizens and business men to perfect its location. Capitalists must have encouragement and inducements. The location and free taxation have been tendered them, but on the site stands a building which with a small amount of money can be put in suitable repairs for the operation of this plant.

HAVE YOU SEEN HANSEN'S Wonderful Calculating Pencil?

The Pencil that figures with a twist of your wrist?
That figures quicker than you can and never makes a mistake?
That calculates anything from 1x13 to 12x24 in the twinkling of an eye?
That gives you hundreds of calculations with the swiftness and accuracy equaling an expert? Have you seen it?

CAN YOU BEAT IT?

Can you tell as quickly as the pencil, for example, how much 11x24.00 is? or 9x1.807 or 23x1.207?
"It is truly a little wonder," says the Pittsburgh Press.
"It is a marvel of ingenious mechanism and has excited a great deal of interest among our readers," says the Boston Traveler.
"An article of the greatest educational merit," says the Youths' Companion.
"It is the greatest educational novelty of the day," says the Detroit Free Press.

25c. Value. Special Introductory Price 15c.

THE EDUCATIONAL VALUE

Of this Arithmetical Pencil is based on the highest Multiplication Table it contains. Every person should know it. Yet many never learn it. They are thus hindered in acquiring quickness and accuracy in mental calculations so necessary to business success. It is especially recommended to young people starting in business life and to those with neglected education. Teachers recommend it to their pupils because the use of the pencil imparts a knowledge of these figures in 1/3 of the time required by the usual methods. Even the Indian office of the U. S. government has recognized its educational merits and recommended that the superintendents of all Indian schools be supplied with samples.

THE CALCULATOR

Is made of pure Aluminum and attached to a pencil of standard quality. It fits any common lead pencil. It also serves as a pencil point protector, a pencil lengthener and an eraser, and it can be carried in the vest pocket.

DIRECTIONS.

Revolve the windowed tube by turning pencil, until the figures you wish to multiply on tube underneath the figure on top cap. The product will appear in window underneath. To multiply 9x1.80, turn 9 on tube under 18 on cap, from the product, 162, shown in window, point off the last figure as cents (\$16.2) and add cipher.

Like the Rest of Us,
"George dear," she said a night or two before the wedding, "do you think it possible that our love and our married life can become the commonplace, coldly practical love and life of the married people we see around us? Oh, George, my heart would break if I thought so."

"But it will not be so," said George passionately. "We love each other too tenderly, too fondly for that. Our love is not of the ordinary kind, my darling, and our lives will not be so. Ah, no, no, my angel; that can never be!"
And the other day she said to him, "George, how would you like to peck for dinner with apple sauce? You would! All right, then, and don't you forget that feeding bottle for the baby or I'll send you back after it, and mind that you don't keep dinner waiting."

And he, with a falling off of the passion of ten years ago, replied: "All right, Lon, and I wish you'd sew a button on the back part of those striped trousers of mine. You'll find them hanging over a chair in our room. Don't have the pork as dry as last time, and you watch the baby's cold. That watering of the eye looks like measles to me. The ancients believed that rheumatism was the work of a demon within a man. Any one who has had an attack of sciatic or inflammatory rheumatism will agree that the fiction is demonic enough to warrant the belief. It has never been claimed that Chamberlain's Pain Balm would cast out devils, but it will cure rheumatism, and hundreds bear testimony to the truth of this statement. One application relieves the pain, and this quick relief which it affords is alone worth many times its cost. For sale by A. B. Fisher, Cloverport, R. A. Shellman, Stephansport.

Over a score of years ago Judge Fitzgerald was appointed to the bench of the district that includes Pima and Cochise counties, in Arizona. He found on coming to Tucson that formality was almost unknown in the courtroom. If the days were warm, the attorneys and attendants dispensed with coats. This to him appeared particularly disrespectful. He announced that smoking in the courtroom would not be tolerated and that coats must be worn under pain of the court's displeasure. The grand jury was called. Among the jurors summoned was a heavy miner, who appeared in his usual costume, a dark blue shirt and overalls.

"At home, judge," mildly returned the juror.
"Then go and get it! No, not a word, sir," glancing down at the man, he was attempted to speak. "Go home and get your coat, sir, or I'll commit you for contempt!"

The miner went silently out. He didn't return that day nor the next, and the judge, after issuing a bench warrant, returned to the court. About two weeks thereafter the original miner, dressed as the court demanded, again stepped within Judge Fitzgerald's range of vision. To the late magistrate he tendered the explanation that his home and coat were both in Harshaw mountains, near the Mexican border, over 100 miles away, and that he had obeyed the orders of his honor in going home after his coat.—Arizona Graphic.

A Quaint Decision.
"In the early days of Cow 'Alene," said an old miner, "I was working with my partners on a claim when we were suddenly startled by pistol shots and, looking up, discovered a man lying prostrate on an adjoining claim, while his assailant was trying to escape by leaping to the best of his ability. Without stopping to pick up the injured man we gave hot chase to the one trying to escape, whom we finally overhauled, captured and laid before a justice of the peace at Mission, Ida, the nearby town."

"There, as I remember it, it developed that it was an attempt at claim jumping and that the man who had done the shooting was the would be jumper. The evidence was all against him, and word came that the man who had been shot lay all but within the portals of death, the physician giving it as his opinion that he could last only a few hours longer, and thereupon the famed justice of the peace rendered his decision."

"I find you guilty of murder in the first degree," said he severely as he turned toward the prisoner at the bar—"that is, provided the victim died," and so that decision stands to this day."

When the Pass Gate Her Back To, it is not strange alone that man can arch their backs. Indeed, when two cats are preparing to fight they do not assume this attitude, but crouch low, just as they do when about to spring on their prey, the body being extended and the hair not in the least erect. But when on an meeting a dog suddenly, fear is combined with anger then the cat, standing at its full height, at once arches its back, with an instinctive effort to appear as formidable as possible.

Darwin compares it to the similar attitude of the lynx when attacked and to that of birds which ruffle their feathers and spread out their wings and tail when alarmed. It is noticeable that all will also arch its back when in an affectionate frame of mind, rubbing itself against its mate's leg. At the same time it slightly raises its tail and holds its tail erect. Its whole attitude is just the reverse of that which it assumes when angry.

Darwin accounts for this in the following words: "Certain states of mind lead to certain habitual actions which are of no service. Now, when a directly opposite state of mind is induced, there is a strong and involuntary tendency to the performance of a movement of directly opposite nature, though it may be of no service."

Tools and Progress.
Despite all the attacks upon machinery, an age without tools is an age of drudgery and degradation. If once men toiled 16 hours a day, with a far more powerful engine cut off two hours in the morning for rest and two hours at night for reading. The modern home, with a thousand and one comforts, is the gift of tools. We now count steel fingers, steel knives, steel wheels and steel wire to do our work. Take away our tools and civilization would go back 100 years.—Newell Dwight Hillis in Woman's Home Companion.

Water in Porto Rico.
The water supply of Porto Rico, because of its abundance and freshness from the mountain streams, ought to be pure and good for use. But it is far otherwise. A thick bed of red vegetation is ever developing beneath the new growth rising above it, and the water filtering through the rotten mass becomes not only steeped with the waste of decaying roots, leaves and grasses, but is full of insects and worms.

"Excuse me," said the shabby looking young man. "But would you be so kind as to cash this check for me?"

"Why don't you get somebody that knows how to cash it?" asked the old capitalist, picking up his carpet sack from the curb.

"The people that know me won't do it," bitterly exclaimed the young man, turning away to hide a tear.
"Poor fellow!" sympathetically answered the farmer as he took out his watch. "How much is it?"
And still they say money's hard to get.—Kansas City Independent.

SCROFULA

The Blighting Disease of Heredity.

In many respects Scrofula and Consumption are alike: they develop from the same general causes, both are hereditary and dependent upon an impure and impoverished blood supply. In consumption the disease fastens itself upon the lungs; in Scrofula the glands of the neck and throat swell and suppurate, causing ugly running sores; the eyes are inflamed and weak; there is an almost constant discharge from the ears, the limbs swell, bones ache, and while swelling is frequently a result, causing the disease to break out through the skin, producing indescribable pain and suffering. Cutting away a sore or diseased gland does no good; the blood is poisoned. The old scrofulous taint which has probably come down through several generations has polluted every drop of blood.

Scrofula requires vigorous, persistent treatment. The blood must be brought back to a healthy condition before the terrible disease can be stopped in its work of destruction. Mercury, potash and other poisonous minerals usually given in such cases do more harm than good; they ruin the digestion and leave the system in a worse condition than before.

S. S. S. is the only medicine that can reach deep-seated blood troubles like Scrofula. It goes down to the very roots of the disease and forces every vestige of poison out of the blood. S. S. S. is the only purely vegetable blood purifier known. The roots and herbs from which it is made contain wonderful blood purifying properties, which no poison, however powerful, can long resist. S. S. S. stimulates and purifies the blood, increases the energy of the system, and restores health and strength to the enfeebled body. If you have reason to think you have Scrofula, or the best blood purifier and blood builder known, so it contains no poisonous minerals. S. S. S. is a pre-eminent remedy for children.

When my daughter was an infant she had a severe case of Scrofula, for which she was under the constant care of physicians for more than two years. She was worse at the end of that time, however, and we almost despaired of her life. A few bottles of S. S. S. speedily cured her, and she is now as healthy as the rest of the family. I do not believe it has any equal for stubborn cases of blood diseases. S. I. Housa, Monticello, Ga.

Our medical department is in charge of experienced physicians who have made Scrofula and other blood troubles a life study. Write them about your case, or any one you are interested in. Your letter will receive prompt and careful attention. We make no charge whatever for this.

LEUTENANT GIBSON won the Derby in
 2:04. Florian and Thirve came in
 second and third.

SOME of the progressive women of
 Cloverport are now turning their atten-
 tion to physical culture.

It takes money to run a city council
 with a thousand-dollar bid in sight
 few councilmen could withstand a good
 gagtable.

The popularity of Cloverport as a
 convention city is evidenced by the two
 important conventions to be held here
 this month. The Old Maids' and the
 Milkmaids'.

MR. JOHN AKERS, mentioned in the
 News some time ago as the grower of
 fine wheat at Irvington, says that he
 will be disappointed if he fails to realize
 from thirty to forty bushels to the acre.

THE first issue of the Breckenridge
 County Democrat is on our desk. It has
 "genuine" organs of good things for the
 politicians for whom it is printed, and
 we congratulate the editor, Mr. Wor-
 seley, of Fordville, on his new venture.

WILLIS GREEN, the large lumber
 dealer of Falls of Rough, has been
 greatly complimented on his hardwood
 lumber by northern purchasers. He is
 doing a mammoth business, running two
 saw mills constantly with a daily ca-
 pacity of 20,000 feet.

MR. JOHN ELLIOTT, of Owensboro,
 one of the largest dealers in leaf tobacco
 in western Kentucky, was at Kirk Mon-
 day negotiating for P. Sherman & Bros.
 purchase. Mr. Elliott's opinion that
 there will be a very heavy crop
 planted this year and in consequence
 prices will be much lower next year.

LEWISVILLE, HENDERSON & SONS,
 railroad stock on the rise. The stock
 has been in good demand at 18 1/2 and 19
 1/2, with the price of the stock to buy
 there has also been an increasing de-
 mand for the bonds, which have in-
 creased on steady buying from 97 1/2 to 100,
 at 99 1/2. About 200,000 were bought last
 week, the last sale being at 99 1/2.

If all mine operators were like Mr. J.
 C. Blair, manager of the Pittsburgh
 coal company at Baskett, there would
 be no miners' strikes. This large enter-
 prise has been running right along dur-
 ing the striking troubles with no trou-
 ble whatever. Mr. Blair is an efficient
 manager, employs no union men and
 adjusts all difficulties with justice to
 the company and to the employees. He
 is the right man in the right place.

THE marriage of missionaries was one
 of the interesting subjects discussed at
 the annual conference in New York.
 The question whether missionaries
 should marry before or after they reach
 their field of labor was argued, pro and
 con. The matter was concluded by the
 testimony of a missionary from China
 who said that the climate in his part of
 China proved so fatal to women that the
 majority of missionaries there were now
 living with their third wives, and that
 he knew one man who had been in China
 forty-six years and had buried six wives
 besides leaving one in a graveyard in
 America.

THE "Henderson Route" is doing it-
 self proud this month in the matter of
 rates. The days when you go to Louis-
 ville on a reduced ticket could compare
 those when you pay full fare. This
 reduction is a great accommodation to
 us country folks in giving us an opportu-
 nity to attend the races, the festival of
 music and the reunion of Southern vet-
 erans. But the "Henderson Route" al-
 ways does the right thing. It is a road
 whose official positions are filled by men
 who understand their business, the
 wants of their patrons and in a happy
 combination of the two, endeavor to
 make their road one of the most desir-
 ably popular and best patronized in the
 state.

The readers of this paper will be pleased
 to learn that there is at least one de-
 cided cure that science has been able to
 effect in all its stages and that is Catarrh.
 Hall's Catarrh Cure is the only positive
 cure known to the medical profession.
 Catarrh being a constitutional disease,
 requires a constitutional treatment.
 Hall's Catarrh Cure is taken internally,
 acting directly on the blood and mucous
 surfaces of the system, thereby destroy-
 ing the foundation of the disease, and
 giving the patient strength by building
 up the constitution and assailing nature
 in doing its work. The proprietors have
 so much faith in its curative powers,
 say that they offer One Hundred Dollars
 for any case that it fails to cure. Send for
 list of testimonials.

It is just as easy to drift into danger
 as to drive into it. The progress is slower
 but the end is equally sure. It is the
 gradual process of drifting which blinds
 to the danger. Men and women drift into
 ill-health in such a way. There is a
 little feeling of oppression after eating.
 After a time it passes away. Some day
 it returns and brings another symptom—
 headache, perhaps. Something is done
 to relieve the headache, but nothing to
 relieve the cause. So one more victim
 goes drifting on to the rocks of disease.
 Young women who are teaching or
 studying are very apt to become victims
 of disease of the stomach. They eat in-
 judiciously, in some cases, and in gen-
 eral the brain is too occupied to allow
 the stomach the blood necessary to carry
 on its functions. Hence in time the
 organs of digestion and nutrition are
 totally deranged, and the young gradu-
 ate goes home a chronic invalid.
 The timely use of Dr. Pierce's Golden
 Medical Discovery will avert such a con-
 dition; the faithful use of it in chronic
 cases will effect a complete cure.

I was troubled with severe headache,
 often accompanied by severe vomiting," writes
 Mrs. Mary Bell, of New York City, "and
 was unable to do my work. I was
 Co. Texas. "I was very irregular and my
 system was all out of order. After I could
 eat almost nothing, and was very weak
 and nervous, I was advised to try Dr. Pierce's
 Golden Medical Discovery, and before
 long I was able to do my work. I was
 of public school life, and contracted to do so."

 program and be sure to come.

Thos. Cain attended the Republican
 Convention at Irvington Saturday.

We will have Children's Day when we
 can. Meanwhile we will work and
 keep cool.

Mr. and Mrs. Alonzo Bennett are un-
 surprised when it comes to treating
 their friends well.

Sunday was quite a rainy day but
 Mrs. Mell was on time and preached one
 of his good sermons.

Let us all go to Irvington the night of
 May 21st to hear Dr. Ralph Bingham. It
 will be a treat not to be missed.

 near Hardinsburg Saturday night. He
 was 69 years old. Mr. Miller had all of
 his life engaged in the pursuit of a far-
 mer, and was exceedingly successful. He
 was a native of this county. In poli-
 tics he was a staunch Democrat but
 never took an active part in political
 matters. Mr. Miller was an influential
 citizen, loved and honored by all who
 knew him. A wife and three children
 survive him.

Mr. Miller was a member of the Epis-

SOUTHERN
PROGRESS.

Northern Capitalists Are Seeking Investments in the South.

GOOD SCHOOL AT

ABBEVILLE, MISS.

ABBEVILLE, MISS., May 5, 1900. MR. JOHN D. BARRIS, DEAR SIR:—Before leaving Kentucky a few of my friends asked me to write to the News occasionally, but I have been so busy and have neglected to do so. The News is a welcome visitor at our home here.

I am still principal of the Normal School at this place. We teach two months. This is my seventh season here. We have enrolled 163 students during the present session and about 30 of these are boarders from other counties. The tuition rates are \$4 and \$5 per month. I can easily make three times the salary here that I did in Hardinsburg.

This is a cotton country. The farmers are about through planting cotton. Some of it has already been sold, at the delivered price, at 7 1/2¢ per pound. The negroes work the cotton almost entirely, but the white man is by a large majority. Capitalists are looking southward for investment and many towns are granting liberal concessions to companies who want to build factories. I think in a few years the greater part of the cotton crop will be manufactured in the southern states. What the south needs, or think they need is, Expansion, Capital, The Nicaragua Canal and Ten Cent Cotton.

As I do not wish to encroach too much on your valuable space, I will close by writing to my old friends and relatives in Breckenridge county that I have not forgotten them nor have I ceased to be interested in their welfare.

I expect to spend a part of this summer in the University of Chicago. While there or at some other time in the future I will contribute a few more random thoughts to the columns of the News. Respectfully,

K. HARRISON.

I consider it not only a pleasure but a duty to my neighbors to tell about the wonderful cure effected in my case by the timely use of Chamberlain's Cough, Croup and Diarrhoea Remedy. I was taken badly with cold and procured a bottle of this remedy. A few doses effected a permanent cure. I take pleasure in recommending it to every sufferer from that dreadful disease.—W. Lynch, Dorris, Va. This remedy is sold by A. R. Fisher, Cloverport, R. A. Shelman, Stephensport.

LOUISVILLE MUSIC

FESTIVAL.

Three Evening Concerts and Two Matinees.

The Festival Association has arranged to make this the third annual musical festival at Louisville the most successful yet given. No expense has been spared and with Mendelssohn and Nord and Miss Loring, the celebrated violinist, on the program, the success of the occasion is assured. The musical club chorus of 250 voices will also be a great feature of the festival.

A one-act play has been secured on all the railroads and a number of out-of-town people are expected to attend the three evening concerts, May 14, 15 and 16 and the matinees Tuesday and Wednesday.

An Epidemic For Whooping Cough.

Last winter during an epidemic of whooping cough my children contracted the disease, having severe coughing spells. We had used Chamberlain's Cough Remedy very successfully for cough and naturally turned to it at that time and found it relieved the cough and effected a complete cure.—John E. Clifford, Proprietor, New York, N. Y. This remedy is for sale by A. R. Fisher, Cloverport, R. A. Shelman, Stephensport.

TWO ACCIDENTS.

One Man Loses A Hand And Another Hurts His Leg.

BATTLVILLE, Ky., (Special).—Mr. Jeremiah Pike, a sawyer who lives about two and a half miles from here, fell against a saw last week and got his hand cut off. The saw entered between the thumb and forefinger and came out near the elbow making a very serious wound.

Another unfortunate accident last week was that of John Ed. Gray, who hurt his leg while loading ties at Ship's Landing. The muscles were almost severed from the bone.

REUNION OF PUPILS.

More Than Three Hundred Former Pupils of Science Hill Will Meet At Shelbyville in June.

There will be gala time in Shelbyville the first week in June, as the Louisville Times Old Science Hill Academy will celebrate its twenty-fifth anniversary, and Mr. Foyt, widow of the school during the week, and already over three hundred responses have been received and more coming. Many of the children who attended the academy are grandchildren of former pupils. The place is filled with memories of other years, and this reunion of pupils from all over the country will be a joyous affair. There is nothing more delightful, after all, than having old schoolmates and teachers meet at least a year under the roof of the old schoolhouse.

1,000,000 DEATHS.

From Cholera During the Past Year.

The Germ of This Fatal Disease are Lurking Everywhere! Thousands of Dollars Saved by This Wonderful Discovery.

Hundreds of thousands of dollars have been lost in the poultry business on account of the devastation among the flocks, caused by cholera, rosy, and other fatal diseases. There have been many remedies advanced, but none seem to be so successful as the American Poultry Mixture. This will cure chicken cholera in the last stage of cholera, rosy, and is excellent for gapes. Do your fowls suffer from violent diarrhoea, dropping of the wings, stupor or excessive thirst? These are the first symptoms of cholera. Cholera is a germ disease and being infectious spreads rapidly through the entire flock. Take time by the forelock; don't stop to experiment with unreliable or untried remedies. Use this mixture at once and the sanitary measures they recommend in connection with it. Do not give the fowls up. Cholera is a terrible disease, but this remedy cures it every time. It is also guaranteed for rosy, which can be told by hoarse breathing, swollen eyes, black spots on the nostrils resembling catarrh. Fifty dollars is offered for a cure. The mixture will not cure. If some of your fowls are diseased, it will prevent the rest from catching it. It is cheap, reliable and effective: a scientific preparation goes more than three times as far as any other remedy; does more good than all other combined. It is used and sold by the best and most experienced and largest breeders of plain and fancy poultry in all parts of the world. The manufacturers guarantee every package, or refund purchase money. If your druggist doesn't sell American Poultry Mixture, he'll behind the age. In that case send \$1.00 for sample box to American Mfg. Co., Terre Haute, Ind.

I expect to spend a part of this summer in the University of Chicago. While there or at some other time in the future I will contribute a few more random thoughts to the columns of the News. Respectfully,

K. HARRISON.

An Epidemic For Whooping Cough.

Last winter during an epidemic of whooping cough my children contracted the disease, having severe coughing spells. We had used Chamberlain's Cough Remedy very successfully for cough and naturally turned to it at that time and found it relieved the cough and effected a complete cure.—John E. Clifford, Proprietor, New York, N. Y. This remedy is for sale by A. R. Fisher, Cloverport, R. A. Shelman, Stephensport.

TWO ACCIDENTS.

One Man Loses A Hand And Another Hurts His Leg.

BATTLVILLE, Ky., (Special).—Mr. Jeremiah Pike, a sawyer who lives about two and a half miles from here, fell against a saw last week and got his hand cut off. The saw entered between the thumb and forefinger and came out near the elbow making a very serious wound.

Another unfortunate accident last week was that of John Ed. Gray, who hurt his leg while loading ties at Ship's Landing. The muscles were almost severed from the bone.

"Cleanliness is
Next to Godliness."

If you would be really clean, begin with your blood. A mottled skin cannot be washed away, eruptions will continue unless the blood is pure. Hood's Sarsaparilla cleanses the blood by pulling and dissolving the bad germs. Hood's is the royal road to real cleanliness, both inward and outward.

Impure Blood—"My face would be covered with such an impure blood, but ever since I have taken Hood's Sarsaparilla, my blood seems to be perfectly pure and I am strong and in good health." J. IN THE STATE.

The Races At Louisville Were Well Attended.

Joseph Moray, assistant cashier of Bankap & Co. Louisville, committed suicide at his home last week. He was more than three thousand dollars short in his accounts.

At a meeting of the church extension board at Louisville last week ten of the twelve bishops of the church were present.

Fifteen cases of small pox are reported in Ballard county. This disease is also spreading in Hardin county.

One man was fatally injured and three others seriously injured in a dust explosion in a department of the cellulose plant at Owensboro last week.

Mr. W. F. McGill, aged ninety years, one of the most widely known and popular men of his county, died at Bardonia last week.

The annual decoration of the Confederate graves in the Louisville cemeteries will take place on June 3d, the last day of the reunion.

The Marden Company of Owensboro has received an order for 100,000 pounds of cellulose to be used in packing the hull of Admiral Dewey's former ship, the Olympia.

Glasgow had a \$150,000 fire last week. The insurance was between \$90,000 and \$100,000.

Rev. Abraham Hackett, an aged Baptist minister of Henderson county, died at Zon last week. He was credited with saying the shortest marriage ceremony on record: "I pronounce you man and wife."

Question Answered.

Yes, Angust Flower still has the largest sale of any medicine in the civilized world. Your mother's and grandmothers never thought of using anything else for Indigestion or Biliousness. Doctors were scarce, and they seldom heard of Appetizer, Nervous Prostration, Heart Failure, etc. They used Angust Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and had with headaches and other aches. You only need a few doses of Green's Angust Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. For sale by—A. R. Fisher.

Your correspondent had the good luck to be at Alfred Wright's at Lyons, about noon last Wednesday. To say that we were royally entertained would be putting it mildly. Mr. Wright and his good wife seem to be getting rich fast. He has a fine farm which is well cared for. While his farm is not level he has on it 30 acres of the finest wheat we have seen in all our riding over this county and Davies. To carefully examine his place one will soon be convinced that a man can live and live well and have a nice farm, nice crops, fine stock and plenty to eat and wear without living in the river bottom.

Brother Sneed has changed his appointment at this place preaching Saturday and Saturday night before the second Sunday.

Miss Heise Tate entered the B. N. college April 10th.

Mr. L. T. Roberts of Roberts' bottom is in very bad health.

We are sorry to hear of Mrs. M. D. Pumphrey's ill health.

It is decided that we are to have a telephone line through this section.

Brother Sneed has changed his appointment at this place preaching Saturday and Saturday night before the second Sunday.

Success to the News. It is a pleasant visit to many homes. When we read the Breckenridge News we hear from many dear friends some of whom we were associated with in childhood days.

Miss Mattie and Mary Haynes of Milan were here shopping Tuesday.

Max Whittet and wife spent Sunday with their uncle, Dick Whittet near Hill Grove.

Miss Jennie Lee Woolfolk, who has been very sick, is reported some better. Miss Mattie Wright is at home again after a pleasant visit with relatives at Howard Station.

Miss Smith returned home from Lexington this week. He has been attending school there.

Preaching services are held here every second Sunday, and Sunday school every Sunday morning.

W. W. Harkin, that bustling timber man, was in town on business and remained a few days with us.

Mr. and Mrs. Sam Kava, of Irvington, recently visited Mrs. Keys parents, Mr. and Mrs. Gus Hunter.

Eron is a bustling little place. Saturday was quite a gala day with a crowd coming and going all day. Store keepers and milliners were kept busy from morning till night. We only have four stores and two milliners here.

SALESWOMEN understand what torture it is. Constantly on their feet whether wet or ill. Compelled to smile and be agreeable to customers while dragged down with some feminine weakness. Backaches and headaches count for little. They must keep going or lose their place.

To these Mrs. Pinkham's health is offered. A letter to her at Lynn, Mass., will bring her advice free of all charge.

MISS NANCIE SHORE, Florence, Col., writes a letter to Mrs. Pinkham from which we quote:

"I had been in poor health for some time, my troubles having been brought on by standing, so my physician said, causing serious womb trouble. I had to give up my work. I was just a bundle of nerves and would have fainting spells at monthly periods. I doctored and took various medicines, but to no relief, and when I wrote to you I could not walk more than four blocks at a time."

Now, thanks to your advice, taking Lydia E. Pinkham's Blood Purifier in connection with the Vegetable Compound and began to gain in strength from the first. I am getting to be a strong, healthy woman and I owe it all to your medicine. There is none equal to it."

MISS POLLY FRANK, Meads, Kan., writes:

"DEAR MRS. PINKHAM—I feel it my duty to write you in regard to what your medicine has done for me. I cannot praise it enough. Since my girlhood I had been troubled with irregular and painful periods and for nearly twelve years I had suffered with falling of the womb, and whites. Also had ovarian trouble, the left ovary being so swollen and sore that I could not move without pain. Now, thanks to your wonderful medicine, that tired feeling is all gone, and I am healthy and strong."

Cutting around the eyes should be avoided, unless you are willing to make yourself a subject for experimenting in surgery. This is unnecessary. Sutherland's Eagle Eye Salve will cure sore eyes and granulated lids when all others have failed. It strengthens the weak eyes.

CONFERENCE OF MISSIONS.

Faith and Fraternity The Controlling Features of This Meeting.

METHODIST CONFERENCE AT CHICAGO.

The great Ecumenical Conference has made lasting impressions at the close of a noted century, says our Breckensridge correspondent. It has been an immense conference of foreign missions. Carnegie Hall has perhaps never held a more deserving one and may never again. Surely the name "Ecumenical" is the proper title for that vast body of men and women. We must remember one element that pervaded that assembly which could not be said for most others—no selfish motive predominated. Each had gone to wage a battle against wrong, all were consolidated and united in one central thought—"Throw out the Life-Line." "Spread the Gospel of Christ!" All the great Protestant communions were represented. Fraternity and brotherliness existed. The whole conference,

spirit has been one of faith and hope and good will. Our southern delegation was large. President McKelvey extended a national welcome and Governor Roosevelt followed with esteem. Ex-President Harrison's response was characteristic of him, graceful, quick and teeming with strong religious convictions.

Not only those fortunate enough to be present but he benefited by the great gathering but as the papers and diaries will be gathered into volumes for publication all lauds will know and feel the influence of those gathered voices from all over the world.

Full well I feel that no one in that throng of consecrated devotees was more interested than our own great missionary friend, Miss Tula Daniel. I hope to have through these columns one of her own pleasant articles telling of the impressive scenes and of the great work accomplished.

All these thoughts naturally bring me to look in upon the Methodist Conference now assembled at Chicago which will be in session a month. Bishop Andrew made a strong address May 3rd. He said while this country had increased fourteen fold in a hundred years the M. E. church had developed ninety-seven fold. He deplored the miscarriage of the anti-slavery law and said the church would not abandon its position on the slavery question. He was strong on marriage, divorce and re-marriage. All amendments that were unwholesome came in for condemnation. The Bishop said "debasing amendments." Well, not only Bishops, ministers and church

members condemn and denounce such amendments, but all sane individuals. A woman who in the slightest degree countenances such amendments is unworthy the title of lady. Excess in innocent amusements is also to be denounced. But innocent pastimes and innocent recreations are practiced by every one in some form. "Be it unto you according to your faith."

STRONG MINDED WOMEN.

State and its politics, the civilization of the State and its reputation, depends on them. Oh, let us come down out of the clouds of clerical aloofness, and get our feet on a solid footing of plain common sense and logic. If women are even half as good as Bishop Dudley says they are it is very poor statesmanship to exclude so much goodness and virtue from direct participation in the affairs of government. If they are to carry religion into politics and save the civilization and the reputation of the State they must have a voice in the ballot. No general sense his soldiers into battle unarmed, and no statesman ever expected a disfranchised class to revolutionize politics and save the State. The Emergency Association has a membership of three thousand. If they take up their "good citizenship" work in sober earnest, there will shortly be about three thousand new members added to the Kentucky Equal Rights Association.

Science has found that rheumatism is caused by uric acid in the blood. This poison should be excreted by the kidneys. No rheumatism with healthy kidneys. Foley's Kidney Cure always makes them well.—Moorman & Owen.

INDIGESTION

If you have it, you know it. You know it all about the heavy feeling in the stomach, the formation of gas, the nausea, sick headache, and general weakness of the whole body.

You can't have it week without your blood being impure and your nerves all exhausted. There's just one remedy for you—

AYER'S Sarsaparilla

There's nothing new about it. Your grandparents took it. 'Twas an old Sarsaparilla before other sarsaparillas were known. It made the word "Sarsaparilla" famous over the whole world. There's no other sarsaparilla like it. In age and power to cure it's "The leader of them all."

It cures... Ayer's Pills cure constipation. "After suffering terribly I was cured by your Sarsaparilla. Took three bottles and now feel like a new man. I would advise every fellow creature to try this medicine. It has stood the test of time and its curative power cannot be excelled."—J. R. Green, Brownstown, Va. Jan. 30, 1899.

Write the Doctor. If you have any doubts whether or not the best medical advice you can possibly receive, write the doctor. He will give you a full and complete reply without cost. Address: Dr. J. C. Ayer, Lowell, Mass.

IRVINGTON.

Paul Frost is in the city on business. Will Shellman is in Louisville on a short visit.

Mrs. Mary E. Tyler is visiting Mrs. Bally and other friends.

Mrs. D. C. Hester is in the city Thursday and Friday.

Miss Rosa Moorhead of Cloverport is the guest of F. H. McElhiney.

Don't fail to visit Dr. Renfrow's office during court week at Hardinsburg.

Mrs. Brasher of Owensboro is the guest of her brother, J. R. Wiley.

Mrs. Corbett writes for the "Star" Thursday to lay in a new supply of goods.

Seats for the Bingham Entertainment are on sale at McGlothlin & Figgitt's.

The A. H. Handle factory is a certainty and will be in operation at an early date.

Mrs. Sallie Beachamp and baby are visiting her parents, Mr. and Mrs. Henry.

Mr. and Mrs. A. B. Coleman have gone to Vine Grove for a lengthy visit to their children.

There is strong talk of a stock company forming here and opening a canning factory.

W. E. Brown continues to improve his store and the new pavement is quite an addition.

Clarence McGlothlin came down from Louisville Sunday to spend the day with the home folks.

Charlie Marshall, wife and baby are at home. Expect to be a short stay with W. T. Marshall's family.

G. E. Brown has given an order for lumber to build a handsome house on his lovely site in Woodland.

Mrs. Galloway, Cloverport, has purchased a house and lot in town and we hope to see them move in very soon.

Mrs. Letha McGlothlin and Miss Lillie McGlothlin have left for a visit to Mrs. H. F. Herndon, Grayson Springs.

Miss Jane Warfield, one of Cloverport's most interesting young ladies, was calling on friends between trains Tuesday.

There is a growing demand for homes to rent in the town of Irvington, though some people do say business is leaving it.

Richard Herndon is on the sick list, but with Dr. Moorhead's skillful treatment "his" hoped he will be out again soon.

R. B. McGlothlin is agent for the McCormick Harvesting machines, binders and mowers. This machine is not only the best now on the market but offers the farmer the strongest warranty.

On the 21st (Monday-night) at the Baptist church the people of Irvington and neighboring towns will have an opportunity of hearing and seeing that most distinguished entertainer, Ralph Bingham.

Mr. Bingham comes to us highly recommended by those who have heard him and they assure us he rivals Perley, Nye, Riley, Ounick and others, and whatever role he assumes, whether impersonator, vocalist, violinist, humorist or story-teller, he is unrivaled. Let every body come and enjoy this intellectual treat of a very high standard.

BRANDENBURG.

Pussy Herrie spent Sunday at home from Cloverport.

Mr. and Mrs. Eugene Hardesty will entertain at dining this week.

Mrs. D. W. Lewis is spending the week with Mr. R. J. Patterson's family.

Henry Cowley, of Louisville, spent Sunday here, the guest of Miss Lela Bland.

Mrs. J. W. Lewis and Miss Bea Lewis visited Mrs. Jesse Herndon at Irvington last week.

Col. Brumman and wife, of Evansville, spent Sunday with their daughter, Mrs. E. T. Bishop.

Robert D. Pusey came over last Sunday from Indianapolis and spent the day at home.

Mrs. G. L. Neale and Jimmie Ditto were down last week from Louisville, the guests of Mr. Fannie Ditto.

Mrs. Sallie Burch entertained the "X" club Tuesday afternoon from 3 to 5 with games and music, less and cakes.

Misses Lena Nevitt and Ruth Phillips visited Miss Jennie L. Woolfolk last week. Miss Woolfolk has been quite sick.

Miss Jen Hardin entertained last Saturday evening for Misses Mary Lewis and Annie Elder. A pleasant program is reported.

Ralph Bingham will give an entertainment at the Court House Saturday night, May the 10th. Tickets 40, 30 and 20 cents. Don't miss it.

Mr. Fox Rhodes entertained the reading club most pleasantly on last Thursday afternoon. Mrs. Eugene Hardesty joined the band.

The Woman's Missionary society will meet with Mrs. Ginnie Phillips Friday afternoon. Mrs. D. W. Lewis will read the regular monthly bulletin.

Dr. D. C. Pusey has gone back to Louisville for treatment by electricity. He is improving and we hope he may be entirely relieved of rheumatism.

R. H. Nevitt, D. M. Denoon, D. S. Richardson, Elvie Wingo, Dr. P. H. Nevitt, H. K. Ditto and Will Roberts saw Lieut. Gibson win the Derby.

Dr. Pusey and Miss Maydes Pusey have returned from Louisville. We all miss Maydes more than most anybody in our circle and are always so glad to welcome her home.

Children's Day services will be held at the Methodist church the third Sunday in this month, May 20th, at 10:30 o'clock. Special singing and an interesting program. Come everybody.

Doc Run Springs or the Old Mill summer resort will open June 1st. Pleasant pleasure, quiet, with fine sulphur water and cold fresh water. Music and amusements every evening.

How sweet some people are in this world. They never see broken down corners or neglected fences, but they invariably look clear over to find the flowers that are blooming. They hunt virtues and ignore follies.

Mr. Taylor Haynes has returned from Paducah where he has been for six weeks with her daughter, Mrs. Gene Gendry, nee Lida Haynes, to whom we extend congratulations on the arrival of the first-born—No. 10.

Will McGlothlin will remain this year at home at his father's request, to take charge of the farm. He gave up a lucrative position in Louisville to do so. Will is an all-round, fine fellow and made the sacrifice willingly and we are all glad to number him as one of us.

Rheumatism is conceded to have its origin in a poisoned condition of the blood and to be most successfully treated by HERBINE, which acts upon the liver, kidneys and other blood purifying organs, thereby diverting the system of the offending agents. Price, 50 cents.

Mrs. H. C. Rawlings, of Kansas City, was here several days ago to see Mrs. Alanson Moorhead who is ill at her son's, Alanson Moorhead. Mrs. Rawlings was looking well and her old friends were glad to see her once more. Mrs. Moorhead is nearly ninety years of age.

Her daughters, Mrs. Baggins and Mrs. Stanley are with her.

Charlie Casperke has been confined to his bed for several weeks. He is patient cheerful and always glad to see his friends. Charlie is an exceptional character. Had he the physical ability as he has mental capacity and spiritual inclinations he would be one of the brightest stars in the galaxy of brilliant minds. As it is, he has been a power.

Judge and Mrs. S. P. Woolfolk entertained at dancing last Thursday night for their daughter, Miss Lela. About fifty guests were present. Most enjoyable time was spent. Mrs. Woolfolk is a great lover of music and flowers. She plays well herself and her lullaby bed has thirty-six varieties—the largest and prettiest I ever saw. Mrs. Woolfolk combines the substantial with the ornamental as three hundred young chickens attest.

The community and the reading club, most especially were disappointed that Miss Alexander failed to secure the "Twelve Pictures," re-productions from the greatest in the world, and therefore could not give her program here as advertised. However, the club had a most interesting, instructive talk from her at Mrs. Grinnell's Wednesday afternoon. She had the small Perry pictures which

are in themselves beauties from Miss Alexander's studio.

That classic event at Churchill Downs, May 3rd, will be handed down as a most memorable one. The crowd was the largest in years and the betting was the heaviest for many years. \$1,500 and \$2,000 were staked down by some, while \$500 bets were in order. Lieut. Gibson was easily the king of the track and felt that he had a right to become somewhat surly after his triumph. He is just like a lot of folks, you know, property, homage and applause turned his head, hence his rebellion to his groom. I love a pretty horse, a fast horse, I love to see a large, interested representative Kentucky crowd, but I am bitterly opposed to racing and more bitterly opposed to betting. Both are objectionable. Robert Bonner has the finest horse of the age but he never allowed a cent to be bet on one while in his possession, and others could do the same.

"I had stomach trouble twenty years and gave up hope of being cured till I began to use Kodol Dyspepsia Cure. It has done so much good I will call it the savior of my life," writes W. R. Wilkinson, Albany, Tenn. It digests what you eat.—A. R. Fisher.

A Woman's Awful Fall.
"There is only one chance to save your life and that is through an operation. This was the startling words heard by Mrs. I. B. Hunt of Lima Ridge, Wis., from her doctor after he had vainly tried to cure her of a frightful case of stomach trouble and swellings. Call me! I had formed and she constantly grew worse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful stomach, liver and kidney medicine. Get a bottle of Electric Bitters. Try it. Only 50 cts. Guaranteed. For sale by Short & Haynes, druggist."
